

## Powered Hi-Low Bariatric High Care Chair

This Powered Hi-Low Bariatric chair is completely unique, being the very first true bariatric chair (for both size & weight capacity) that has the ability to raise and lower.

The powered Hi-Low great 'all in one' solution for getting a large patient up and about... in some cases while they are still on bedrest.

- Excellent full body comfort, pressure care and support
- All functions powered for ease of use
- Brilliant access to both sides for lateral transfers
- Good access to the front including for devices such as Steady-Eddies
- Height adjustment ensures right height ability for cares, transfers, and communication
- Flap out foot support
- Sides can be 'splayed' allowing extra width or pillows
- Allows patients to Get Up, Get Dressed, and Get Going!

**All BariQuip products are** designed & developed to high specifications for the unique demands of home usage.
